46. Believe it or not. 2018 Fall Level 2&3

What's something that's surprising about you?

Believe it or not, but I used to be able to ski really well. My parents used to take me skiing every winter. I couldn't get enough of it. I wanted to ski every chance I got. Sometimes, I got carried away skiing and I injured myself. It was nothing too serious. I was fearless when it came to skiing. I can't imagine myself doing that now. I'm really careful that I don't get injured.

What's something surprising about someone you know?

Believe it or not but my friend decided to go backpacking around the world. What's surprising is she's 60 years old! What's more, she'll do it by herself. I can't imagine myself doing it. I mean, who knows, she might get sick or injured. What's she going to do? There would be nobody she can depend on. She told me she wanted to live strong. I get how she feels but at the same time I feel it's too reckless.
